Notes

- *Michel currently only one testing. Hopefully more people will join.*

- *Issue: https://jira.lyrasis.org/browse/VIVO-1983 - profile editing will be saved to current language, instead of standard*

    - *Possible solutions?*

    - *Add language tags at label editing*

    - *Separate on Manage label page*

    - *Michel: should go with the approach easiest to implement for release (Ralph & Brian agree)*

- *Issue Not Yet Added : Security problem when new user is added (email sent includes code, always the same for every user), affects probably only internal accounts*

    - *Solution: don't truncate code*

    - *Numbered release or Patch?*

- *Monday release of RC2?*
    - *On Monday testing for RC1 ends, should we immediately put out RC2 or wait and fix issues from RC1 testing, so RC2 could potentially be *the* release?*

    - *Georgy: should we meet on Thursday or Friday and review?*

    - *Meeting on Friday morning(US)/Friday afternoon(EU): Georgy & Michel available*

    - *See Slack for further details (will be communicated there)*
