ACTION ITEMS:

- *All - Gather links to existing change management approaches and documentation. Add links and descriptions in [Existing Change Management Approaches](#) working document.*
 - *Nancy Fallgren - Add description of how MeSH conveys Deletes to downstream users.*
 - *Jesse Lambertson - Look for an ontology oriented toward documenting changes (e.g. add, delete, etc.)*
 - *Vitus Tang - Document current notifications received from 3rd party vendor when a previously requested entity that wasn't available becomes available from the authority provider.*
-

Agenda

- **Access Issues**
- **Additional Agenda Items (for future meetings)**
- **Types of changes** – Continue defining what information needs to be provided for each type?

Meeting Materials

- [Types of Changes](#) (*working document*)
 - [Existing Change Management Approaches](#)
 - [Change Management NOTES from LODLAM 2020](#)
-

Recording

Notes

Notes were taken directly in the [Types of Changes](#) and other working documents.

Future Topics

- *Notification to a single institution when a requested entity that was missing becomes available. This will likely be outside the main change management stream.*
 - *Value of diagraming to express changes as a means of conveying information around where data is being produced, where it goes, etc.*
 - *Partial splits and partial merges.*
-
