Any news items we should blog about?		new form : when fully operational End of the year wrap-up : end of December/beginning of January. 2021 main figures, main events (Ark Alliance creation...), maybe map update.
Recent NAAN decisions worth mentioning?		<ul style="list-style-type: none">▪ 2 (probably) "test" requests, which did not reply to request for additional information <p>==>the curator in charge of the first request follows the request until completion or decision to drop, and if necessary briefs his/her successor.</p> <ul style="list-style-type: none">▪ end of Learn&Go series of requests : it is vital to always check whether a company/institution has already a NAAN▪ When a new NAAN is selected in the candidate_naan file but the request ultimately is not completed, the selected NAAN stays in a limbo : neither attributed to an organization nor available. <p>==> The roll back is a manual process : cut and paste the NAAN, then paste it back in the list of available NAANs in the candidate_naans file</p> <p>the curator in charge of the initial selection has to do it, since it might also be an error on an update: in which case the NAAN must NOT be made available again.</p>
Next month curator duty (Brian/Maria)		
Reminder of wiki editing privileges		All group members should be able to directly edit the wiki.
Start made on script for processing the revised NAAN request form There's still time to review that form for changes		a gmail address (or request to connect to a g-account) appears on the first page. to be ignored, and that email is not used by the form later on. Name of N2T resolver "rule" : "URL" to match the following question ?
