Notes:

Announcements:

- Jared is awesome - everyone loves him.
- Arran, Jared, and Danny will be at OR - workshop on Monday 2-5
- Jon Dunne, will present at Repository Rodeo
- IPres presentation accepted for Scotland - no sure if we'll be there in person or virtually

6.2.0-RC-2:

- Barring anything new, will release tomorrow

New tickets

- Transactions on HTML UI needs to be fixed.
    - Plan for now should be to remove the transaction tab from the HTML UI.
    - To be done post 6.2.0 release
    - Long term solution is turn the HTML UI into a progressive webapp.
- For FCREPO-3827: Jared will update the ticket with decision to allow FedoraUsers to post to tx endpont and add a follow-on ticket to add an ACL for the transaction endpoint.

Tickets in Progress:

- Migration Validator updates seem good. Calvin Xu tried it with the HEAD only but getting errors because head-only migration validation needs to be updated.
- Calvin Xu will create a ticket
- Head only migration tickets: needs code review.
    - Danny Bernstein will do code review
- Jared Whiklo will merge 3809
- 3655 needs a review
- https://github.com/fcrepo/fcrepo/pull/1994 should be pointed at main branch and will be reviewed/merged post release.
