

Documentation Management

This page includes various hints/tips for managing DSpace Wiki Documentation. It is meant for DSpace Documentation Editors & Developers. This page (along with any subpages) does not appear in the [Official DSpace Documentation](#) (as it documents the process for creating DSpace Documentation, and doesn't document DSpace itself).

How To's / Hints / Tips:

- [Documentation Editing Guidelines](#)
- [How To Export Downloadable Docs from Wiki](#) (e.g. Export to PDF)
- [Documentation Administration](#) - Notes on how DSpace Documentation Wiki Spaces are setup and administered.
- Confluence's [Hints on configuring the Documentation Theme](#) (This theme is used in all our DSpace Wiki Documentation Spaces).
 - Includes hints on how to modify the left sidebar for a Wiki Space.
 - Also includes hints on how to display headers on all pages of the Wiki Space.

TODO: More notes on how the manage & release Wiki documentation should go here!
