- Chloé Pochon

Goals

Monthly team checkin.

Discussion items

Item	Who	Notes
Announcements		<p>Passed 1000 ARK organizations this month</p> <p>First 3 NAAN candidates from West Africa jk: will meet this week with UTSC library about their new ARK service (see code4lib article)</p> <p>Plugin developed to assign ARK ID for OJS 3.X.X (Smarty/PHP/JavaScript) : plugin available on Github @yasielpv . Documentation isn't easily available, some exam of the package should be reviewed to provide some needed improvements.</p>
Calls for papers, submission deadlines, upcoming meetings		<p>jk: submitted ARK panel proposal for Dec CNI meeting mg: ok to forward EOSC PID workshop to other ARKA working groups</p> <p>December 13th : <i>Rencontres 2022 de la donnée culturelle</i> (Data Forum for FR Cultural Institutions) : one of the presentations will be the Louvre's Collections portal https://collections.louvre.fr/ : the project, and the ARK permanent identifier attributed to each work displayed.</p>
Any news items we should blog about?		<p>jk: will work with rv on a community update blog post, with an updated map</p>
Summary of the past month activities		<ul style="list-style-type: none">▪ 13 assignment requests, 4 update requests.▪ 11 new NAANs, 5 updates (2 through the curation form, 3 direct manual updates, as they were recent entries).▪ 1 pending assignment request: #55.▪ #54: test ARKs, regex in the registration form needs to be changed (I like regex but I did not dare to propose a new pattern myself!)▪ Bug in the update process through the curation form: for #57, I had to do it manually because the form tried to do a NAAN assignment and failed.▪ New request, but the organization already has a NAAN : #49. Be cautious not to assign a new NAAN; agents might forget one of their predecessors already requested a NAAN.▪ #46: though there is a doubt on which entity the NAAN is requested (does the provider requests it for a client organization or their entire system?), the warning in the answer is considered sufficient.
Communication on certain NAAN assignment process		<p>When an issue arises, to have a discussion between all group members.</p> <ul style="list-style-type: none">▪ email to requesters (Github is private)▪ the group email still exists▪ To adress issues of all kind (technical, or eligibility or else), the Github team group offers a way to notify the whole group @CDLIC3/naan-registry with a link to the specific request card

<p>Action items from last time</p> <ul style="list-style-type: none"> • John Kunze clarify and revise the checklist and policy docs to guide curators on use and encouragement of shoulders instead of NAANs; ask rv for feedback • John Kunze change contact form email to forward to Outreach 		<p>Started!</p>
<p>Who is primary curator in the next few months?</p> <p>next month: Chloé/Aurélien</p>		<p>Next meeting on Dec 21th.</p>
