

# DevMtg 2012-06-13

## Developers Meeting on Weds, June 13, 2012

### Agenda

#### Regular Items

- [JIRA Reviews](#) – starting with issue DS-1047
  - [Search for all Unresolved Issues \(since DS-1047\)](#)
- **REMINDER:** Sign up for [DSpace Developers Meeting at OR12](#) if you plan to attend!

#### Discussion Topics

1. Feedback on the [DSpace Developers Meeting at OR12](#) draft agenda?
  - Should we schedule more time in for "3.0 Discussions"?
  - Did we want to schedule in 1/2 hr or so for Jonathan Markow (DuraSpace Chief Strategy Officer) to talk / answer questions on DSpace + Fedora and DuraSpace roadmaps?
  - Is there anything that you feel could be "cut" from the agenda, or discussed instead as a "Special Topic" Meeting or as a "Developers Summit" in late Summer / early Fall?
2. Feedback on DS-1193: I would like to continue to work on [DS-1193: display bitstream read access permissions on item page](#), but there is the issue of access to the data about access permissions, which is currently public (accidental feature? see [bitstream access rights in DRI?](#) thread) and some developers think it should be restricted. Before I continue working on that, I'd like to get an ACK that XMLUI will continue to have access to this data (probably accessible only from localhost, any pointers how this can be done?). --helix84
3. Need to review [Guidelines for Committing](#) based on GitHub/Git?
  - Thoughts on how we rework these policies to our new GitHub development environment (with Pull Request policies, etc.)?
4. [3.0 Release](#) Updates / Possible feature updates or ideas
  - **REMINDER:** Add your planned 3.0 contributions to the 3.0 Wiki Page
5. Where should translations of individual modules like Discovery go? Including them in the main messages.xml currently works. This should be answered before freeze time, it already poses another barrier for committing of translations, see [DS-1049](#), [DS-1054](#). This is a subproblem of [i18n Improvements Proposal](#), but let us not divert this discussion too much to broad topics. --helix84
6. [DS-531: ETD-MS schema out of the box](#). Again, the [larger problem](#) is that our metadata schema should be brought up-to-date with DCMI, but maybe we could tackle this smaller issue of ETDs. I suggest we add a "thesis" schema with 5 fields mentioned in this [table](#) to support ETD-MS out-of-the-box. --helix84
7. Other topics?

#### Additional Ongoing Topics

1. How can we "catch up" with JIRA Backlog?
  - Do we need to "split up" the tickets & do quick reviews on our own? Or perhaps just split up tickets & do a very quick ranking & schedule ones with patches for 3.0?
  - Perhaps we schedule a "JIRA Backlog Bash" event (via IRC or similar) where we work together to decrease the backlog over a few days or a week (think of this like a "Test-a-thon" but instead we'd be working to just clear out the backlog as best we can).
2. Brainstorming Features/Changes for 3.0. Can we work towards development teams around any of these projects?
  - Larger DSpace projects which seem to have a lot of recent support:
    - Moving towards a Common "Business Logic" / Business Services API. (I.e. avoiding duplication of business logic in all UIs)
    - [Metadata For All](#) (i.e. metadata on all objects), SubTopic: Getting us up-to-date how we use Dublin Core / DCMI. (Support from DCAT)
    - AuthN & AuthZ issues, including: [DS-994](#), [DS-1006](#), [DS-1007](#), [DS-1088](#), and developer meeting on [May 2, 2012](#)
  - Other DSpace projects receiving mention recently
    - [Migrate Search and Browse to DSpace Discovery](#)
    - "Change which UIs come out-of-the-box" (and which are optionally installed later)
    - [Move configurations to DB or similar](#) (so they can be managed/edited from Admin UI)
    - [Context Guided Ingest](#) (or Item Type based submissions)
    - Other [Development Proposals](#)

### Individual Status Updates

*If you have status items to report, please enter them below at least 1 hour before the meeting starts.*

### Meeting Notes

JIRA Review, Topics for [OR12 Dev Mtg](#), after meeting discussion of access rights to access rights

### Meeting Transcript

- Full IRC Transcript is available at - <http://irclogs.duraspace.org/index.php?date=2012-06-13>

### Action Items

*Action items coming out of this meeting go here, if any.*
