

# 2024-04-17 NAAN Registry WG Agenda and Notes

## Date

17 Apr 2024

## Attendees

- Bertrand Caron
- John Chodacki
- John Kunze
- Jenifer Marill
- Brian McBride
- Chlo   Pochon
- Romuald Verrier

## Goals

Regular monthly meeting

## Discussion items

Item	Who	Notes
Announcements		JM: can help to review/edit any blog post (Sefakor? Andy Irving? John O'Malley?)  Blog post template developed by the Outreach WG.
Any news items we should blog about? Any calls for papers, submission deadlines, upcoming meetings we should note? Please add to <a href="#">Calendar of events</a> .		WAC 2024: JK is coming to Paris.  JK found a slot to give a speculative talk about how ARKs could work for web archives.  Ad hoc submissions for iPRES
Status of new NAAN processing developments at CDL		JC: Still working on the backend system. Will keep the group updated. N2T upgrade has not been made yet.
review of <a href="#">in-progress issues</a>		21 new NAAN requests (out of which one is still pending), 3 update requests.
Questions related to the NAAN curation activities in the past month.		BC: Question regarding the update procedure for EZID clients. Might be a temporary procedure as it will probably change with upcoming infrastructure changes. Generally, resolver information in the registry is ignored. But if not, it should be right.  BC: doubts about update request <a href="#">#402</a>  Information about the base URL registrant was default registrar information, probably used also by scammers, which would explain that it appeared in scams. Best practice: try to reach out to registered contacts.  BC: enforce recommendation for only one contact entry point per NAAN? Best practice: recommend submitting role account, and having just one contact entry point per NAAN.
Curator changeover as of today		Romuald primary, Brian secondary.

## Action items

- JC: ask Dave Vieglais about why an update request came from an EZID client.
