

2012-09-19 VIVO Ontology Call

Updates

- VIVO maintenance release 1.5.1 still forthcoming. No changes to the ontology except for format of the geopolitical tbox in the public (not runtime) suite.
- Updates, issues, questions from implementation sites

Issues to discuss

- Can the <http://vivoweb.org/ontology/provenance-support#PersonAsListed> class be removed from the ontology? If so, shall we deprecate it for a release?
- [VIVOONT-433](#) modeling open access journals
- [VIVOONT-449](#) eISSN and ISSN-L - do we need multiple properties?
- [VIVOONT-451](#) adding ReferenceWork or EncyclopediaEntry
- [VIVOONT-452](#) adding more specific types of grants – can we get any guidance from CASRAI, other ontologies, research.gov, grants.gov, or NIH RePORTER?
- [VIVOONT-453](#) make Hospital a subclass of Clinical Organization

There's more [v1.6 Ontology Issues](#) to discuss if we have time.
