

2012-03-21 VIVO Ontology Call

11:00 am Eastern time

Agenda

- Updates, issues, questions or feedback from sites
 - UNT: familiarizing with VIVO ontology and middle layer schemas from IU. Looking at UNT faculty reporting systems, using ETL to normalize the data. Cliff has created interface mapping data from faculty profile system to VIVO ontology elements. Question about controlled vocabularies; we reviewed degrees, discussed future of organizations, journals.
 - UF: analytic queries for grant ingest, merging stub authors to actual authors. Can see difference between clinical depts which typically don't publish so much, as opposed to research which publish much more.
 - IU: data cleaning with people from digital library team. Using xslt to convert data from relational DB to RDF.
 - Weill: Opened Jira issues for current issues. Ingesting Scopus data.
- Modeling data from F1000 ([VIVOONT-439](#))
 - comments added on issue in Jira
- Flagging publication records by student and year of study. See [Michaelleen's email on the ontology listserv](#)
 - Discussed Student status individuals, of year1, year2, etc. Add an object property on the Authorship node.
- Representing physician board certifications ([VIVOONT-440](#))
 - comments added to Jira issue
- - we didn't get to the following three issues:
- vivo:educationalTrainingOf does not display on university pages ([VIVOONT-438](#))
- How does one represent academic/faculty tracks? ([VIVOONT-436](#))
- How to store privacy flags (UF)
 - we didn't get to this topic on the March 7, 2012 call. Nicholas planned to implement in the meantime and we can discuss what he did.

Call-in Information

1. Please join my meeting: <https://www1.gotomeeting.com/join/956365752>

2. Use your microphone and speakers (VoIP) - a headset is recommended. Or, call in using your telephone.

Dial +1 (646) 558-2103

Access Code: 956-365-752

Audio PIN: Shown after joining the meeting

Meeting ID: 956-365-752
