

2011-10-27 Development Leads Call

Updates

1. Cornell is on 1.3 as of 10/26
2. Duke
3. Florida
4. Indiana
#: * Michael Grobe is continuing to work with VIVO data in Joomla for the Indiana CTSI portal and may have an update for soon
5. North Texas
6. Stony Brook
7. Weill
#: * Installing VIVO 1.3
#: * Created local version of vivosearch.org. LinkedDataIndexer not indexing all the data??
8. Wisconsin

Special Topics

- Update on VIVO 1.3 development status
- Janos from Stony Brook can demonstrate (after 1:30) an application that used a broader/narrower term search; this was implemented in MySQL before Solr was where it is today, but the interface could help inform our future plans for leveraging RDF vocabulary links when the vocabulary has a hierarchy.
Alina Jasniewski, the programmer at Medical Informatics who implemented the interface, can also hopefully join.

Notable Development List Traffic

- Linked data index builder work at Weill
- Melbourne bug report
- U Chicago – moving VIVO from one server to another
- Chile – how big a file of RDF can be uploaded?

Call-in Information

1. Please join my meeting, Oct 27, 2011 at 1:00 PM. <https://www1.gotomeeting.com/join/431156241>
2. Use your microphone and speakers (VoIP) - a headset is recommended. Or, call in using your telephone.

Dial +1 (630) 869-1011
Access Code: 431-156-241
Audio PIN: Shown after joining the meeting

Meeting ID: 431-156-241
