

2012 VIVO Conference workshop: Survey of VIVO Data Ingest Methods

Tentative Workshop Schedule:

08:30-08:45 Attendee intros (1m each)

08:45-09:30 VIVO UI data ingest tools - Alex and Sunita

09:30-09:45 Coffee break

09:45-10:30 VIVO Harvester - Stephen and James

10:30-10:45 Coffee break

10:45-11:30 D2RMap in Harvester, Google Refine, contributing to the VIVO community

11:30-noon Round table wrap up

Top Questions

- Using named graphs to keep triples ingested automatically versus those input by hand (is this possible in v1.5)
- Using named graphs to keep triples related to different units/orgs separate, e.g. USDA example

Tools Discussed

- [Link](#)
- Python RDF tools, e.g. [RDFLib](#)
- [Karma](#)
- [D2R Map](#)
