

XML Forms

Overview

This module exists to set up the proper namespace and requirements for including all other modules in the XML Forms family, which is a collection of Drupal modules that allow for the manipulation of XML documents through Drupal forms. Installing the XML Forms module will add the following modules to Islandora:

- [Islandora XML Form API](#)
- [Islandora XML Schema API](#)
- [Islandora XML Form Elements](#)
- [Islandora XML Form Builder](#)
