DCAT Meeting Notes August 13, 2013

Attendees

Bram Luyten - @mire
Elin Stangeland - Cambridge University Library
Iryna Kuchma - eIFL.net
Sarah Molloy - Queen Mary, University of London
Sarah Potvin - Texas A&M University
Valorie Hollister - DuraSpace

Time

- 10:00am Eastern/14:00 UTC

Dial-in

We will use the international conference call dial-in. Please follow directions below.

- U.S.A/Canada toll free: 866-740-1260, participant code: 2257295
- International toll free: http://www.readytalk.com/intl
    - Use the above link and input 2257295 and the country you are calling from to get your country's toll-free dial in #
    - Once on the call, enter participant code 2257295

Discussion Topics

	Topic	Discussion leader

1	News / announcements / events, etc.
	
	• News
	  ○ NOW AVAILABLE: First Release of DSpace CRIS Module for DSpace 3
	  ○ Practical Guidelines for Starting an Institutional Repository from "Libopedia"
	  ○ NOW AVAILABLE: DSpace 3.2
	  ○ DuraSpace, a Member of the National Digital Stewardship Alliance (NDSA), Supports 2014 National Agenda for Digital Stewardship
	  ○ The DSpace 2013 RoadMap and 3-5 Year Vision
	  ○ CALL: Host the Annual International Open Repositories Conference in 2015
	• Other Notes
	  ○ Sponsorship update - making progress: http://www.duraspace.org/sponsors
	• Events
	  ○ Say Hello to DuraSpace at SAA-CoSa "Archives 2013"
	  ○ ETD 2013, Sept 23-26 in Hong Kong
	  ○ EDUCASE Annual Conference, October 15-18 in Anaheim, California
	  ○ Open Access Week, October 21-27
	  ○ 2013 DLF Forum, November 4-6 in Austin, Texas
	  ○ Fall 2013 CNI Membership Meeting, December 9-10 in Washington, D.C.
	  ○ Open Repositories 2014, June 9-13 in Helsinki, Finland
	• Other?
	  ○
		Val

2	Metadata project • MetadataMapper tool (in comments section): Proposal to Update DC Registry and Add DCTERMS Registry • Project chunks: https://wiki.duraspace.org/display/DSPACE/Phase+1+Project+Chunks • Review group meeting (Sarah Potvin)	Maureen, Sarah, Amy, Bram
3	Any progress on JIRA issue DS-1583 Adopt interface translating by Translatewiki.net - didn't see any mailing list responses or comments on JIRA - No news at this point, TWN integration php code still needs to be reviewed.	Bram

4	Any new JIRA issues? https://jira.duraspace.org/browse/DS#selectedTab=com.atlassian.jira.plugin.system.project%3Aissues-panel
	
	   • "More Details Needed" - Try to ask relevant questions in the comments, poking the original submitter to provide more detail
	   • "Volunteer Needed" - These are issues waiting for a volunteer. You can put some of these tickets in the spotlight by commenting or +1 on them to indicate that they are really important to you.
	   • "Received" - Help to judge whether the incoming tickets contain enough detail
		Val

Discussion Notes/References

1) News

- Other - ARL/CARL/COAR/LIBER Project to identify new cometencies for academic libraries in supporting e-resarch and scholarly communications: http://www.arl.org/news/arl-news/2860-library-and-repository-communities-join-together-to-identify-new-competencies-for-academic-librarians

2) Metadata project

- MetadataMapper
    - will replace, assign, merge metadata
    - Mark Wood and Richard agree that we need some validation capability, but not in this tool
    - doesn't completely solve migration issues - mapping for tool needs to be defined in config, not available curation
    - Sarah P.: can we test out tool before it is included in DSpace - will post comment on proposal page - ask if tool will be in 4.0 and that DCAT is ready to help test - either now or during testathon

- Project chunks
    - good idea to break up, get more people involved
    - first 2 to start with
        - validate preliminary DC mapping
        - validate the phases/stagings - are all phases necessary/make sense: Proposal to Update DC Registry and Add DCTERMS Registry
- Review group
    - Sarah P.: was on NISO review group - great way to get feedback
    - Sarah M.: can get people to participate for a short time because it is targeted and limited, locally refer to it as a "task & finish group"
    - Val: perhaps review group/task & finish group could be used to validate the DC mapping, may allow for broader participation and for DC compliance experts outside DSpace community to participate because it is a defined/short period
        - Bram: difference between terms – "mapping" vs. "crosswalk" from DSpace developers perspective - crosswalk usually references OAI-PMH – we should use the term "mapping"
        - metadata team has done the preliminary DC mapping, needs to be reviewed and validated to confirm the end result compliant: https://docs.google.com/a/fedora-commons.org/spreadsheet/ccc?key=0AgU-htsSmo31dEtaM1M1Q2E1NlRxNG11ZHFrSkMxNFE#gid=0
        - Sarah P.: is going to the DC conference in 2 weeks, will try to find some resources for a review group on mapping
        - Elin: Jessica Lindholm from Univ of Malmo? in Sweden is a metadata expert
        - Sarah P: metadata team needs to clean up the mapping a bit before review group
    - Sarah: also believe that we need a review group to validate the staging/phases
        - challenging to unpack all issues - technical infrastructure issues, dc compliance issues, etc.
        - need dc experts to validate as well as dspace metadata experts, also broader community of what is supportable
    - Actions:
        - fix references to preliminary mappings on proposal page - make easier to find?
        - add link to OR13 preso on proposal page
        - clean up the preliminary DC mapping
        - look at other applications using DC - Omeka uses unqualified DC, others?
        - think about / ask others about who could participate in review groups
        - contact volunteers to date to update them, ask for their feedback

3) JIRA issue DS-1583

Actions Items

Action Item	Assignee	Deadline

1) Metadata project - prepping for review group
 	
  ○ fix references to preliminary mappings on proposal page - make easier to find?
  ○ add link to OR13 preso on proposal page
  ○ clean up the preliminary DC mapping
	Metadata team - Sarah P., Bram, Amy, Maureen	

2) Metadata project - research / brainstorm on recruiting
 	
  ○ look at other applications using DC - Omeka uses unqualified DC, others?
  ○ think about / ask others about who could participate in review groups
	ALL	

3) Contact metadata project volunteers to date to update them, ask for their feedback on review group idea	Val	

4) Re-start JIRA reviews
 	
a) Everyone should select a JIRA issue of interest (Bram's recommended view: https://jira.duraspace.org/browse/DS#selectedTab=com.atlassian.jira.plugin.system.project%3Aissues-panel)
 	
  ○ **Received**: help to judge whether the incoming tickets contain enough detail
  ○ **More details needed**: try to ask relevant questions in the comments, poking the original submitter to provide more detail
  ○ **Volunteer needed:** There are today 155 issues waiting for a volunteer. You can put some of these tickets in the spotlight by commenting or +1 on them to indicate that they are really important to you.
 	
b) If the issue you select merits DCAT discussion (you want to confirm the importance of the request, want input on request, want to propose DCAT sending a msg to the listserve to find volunteers, etc.) please schedule the month for which you'd like to hold the discussion on the 2013 DCAT Discussion Schedule. If your JIRA issue doesn't merit a DCAT discussion, use JIRA to follow up directly.
 	
c) Monthly discussion leaders should use the DCAT Discussion Forum to start your discussions with the rest of DCAT.
 	
d) Post links/updates to the JIRA issue (summary of DCAT discussion with links to forum, etc.).
	ALL
