

# 2013-09-11 VIVO-ISF Ontology Call

Ontology calls will be held both this week and next week as we adjust schedules for the fall semester. Next week, [September 18](#), will be the first call led by [Melissa Haendel](#).

This week's meeting will be devoted to updates from sites, walking through some of the [documentation in progress](#) for the ontology changes for VIVO 1.6, and reviewing the status of open issues.

If you haven't done so, please add yourself to the [VIVO-ISF Ontology Working Group](#) page.

## Updates

- add to the list if you're not here ... <https://wiki.duraspace.org/x/iOsQAq>

- anyone else

## ISF Documentation (in progress)

The [wiki documentation](#) is slowly taking shape, with more available on the [CTSAconnect](#) website and the [ISF home on Google Code](#)

## Open issues

The work involved in developing the ISF ontology and adapting the VIVO application to use it has set aside other open ontology issues or work in progress. As time permits, we can revisit and hopefully prioritize these issues that will need early consideration in the context of the ISF.
