Other collections

Archival collections

- EAD
 - At the component level? (Harvard has a project doing this.)

Repositories

- Cornell eCommons
- Harvard DRS
 - One source at Harvard says that all items in DRS are also in the HOLLIS catalog, but we think that's not quite right
 - There may or may not be useful metadata in DRS about the items (even if they're in HOLLIS), but DRS metadata tends to be quite operational: info about page scans for use by page-turning software, etc.

Digital Collections

- Arbitrary OAI-PMH
- Possible Harvard collections to pull in:
 - Nuremberg
 - Emily Dickinson
 - Colonial North America (which also has EAD component metadata)

Image databases

- IIF
- VIA/Olivia/Shared Shelf
- HWP 

Arbitrary OAI-PMH

- plug in any AO
