Team Calendars

Fedora is a robust, modular, open source repository system for the management and dissemination of digital content. It is especially suited for digital libraries and archives, both for access and preservation. It is also used to provide specialized access to very large and complex digital collections of historic and cultural materials as well as scientific data. Fedora has a worldwide installed user base that includes academic and cultural heritage organizations, universities, research institutions, university libraries, national libraries, and government agencies. The Fedora community is supported by the stewardship of the [LYRASIS](#) organization.

Learn About Fedora

- Fedora has been implemented by [many organizations](#) around the world
- Visit the [Fedora Website](#)
- [View release notes](#) for the latest version of Fedora
- [Browse the code](#)
- Fedora is stewarded by [LYRASIS](#)
- [Become a member](#) to support Fedora

Participate in the Fedora Community

- Join one of the Fedora [mailing lists](#) to ask questions and stay up to date, or join us on [Fedora Slack](#)
- Drop-in or participate in one of our [Community Calls](#)
- Learn about [Fedora User Groups](#) in your region, or start your own group

Get in touch with the Fedora Program Team:

- Program Manager - Arran Griffith (arran.griffith@lyrasis.org)
- Developer - Dan Field (dan.field@lyrasis.org)

To edit this wiki or create issues in the Fedora [JIRA](#) issue tracker, [request](#) a LYRASIS ID with access to JIRA

Contact wikihelp@lyrasis.org for assistance with problems logging on to or accessing this wiki

Open Source Development
