Integrations - importing large files into repositories using an external system

Title (Goal)	it should be easy (and possible) to add large files to the repository
Primary Actor	System | Human | External System
Scope	
Level	
Story (A paragraph or two describing what happens)	Pete has encountered some problems with importing large fles into the repository in the past. Lucky for Pete, nowadays he can import his files using a third party platform. In this way he can upload his files much quicker and the chances of losing connection before completion are lowered.
