Upgrading from 2.x

A direct upgrade path from Fedora 2.x to 3.5+ is not currently available. Therefore, in order to upgrade from Fedora 2.x, you must first upgrade from Fedora 2.x to 3.3, then from 3.3 to the current version.

Steps:

1. Migrate from 2.x to 3.3
2. Upgrade from 3.3 to the current version
