

Admin UI - DSpace should accommodate basic index normalization

Title (Goal)	Admin UI - DSpace should accommodate basic index normalization: e.g. "case-insensitive browse" and "do not index punctuation"		
Primary Actor	Administrator		
Scope	search and browse index		
Level	high level		
Story (A paragraph or two describing what happens)	<div>Currently, only the deprecated Lucene browse system supports case-insensitive browse indexes. The current implementation of Discovery does not support this functionality. DSpace should support some basic case-insensitive browse index. See this Jira ticket for more information.</div> <div>Unable to locate Jira server for this macro. It may be due to Application Link configuration.</div> <div>ad map</div>
