

Admin UI - DSpace should accommodate basic index normalization

| | | | |
|--|---|--|--|
| Title (Goal) | Admin UI - DSpace should accommodate basic index normalization: e.g. "case-insensitive browse" and "do not index punctuation" | | |
| Primary Actor | Administrator | | |
| Scope | search and browse index | | |
| Level | high level | | |
| Story (A paragraph or two describing what happens) | <div>Currently, only the deprecated Lucene browse system supports case-insensitive browse indexes. The current implementation of Discovery does not support this functionality. DSpace should support some basic case-insensitive browse index. See this Jira ticket for more information.</div> <div>macro. It may be due to Application Link configuration.</div> <div>Unable to locate Jira server for this macro.</div> <div>ad map</div> | | |
