Developers Meeting on Weds, July 29, 2015

Today's Meeting Times

ⓘ

- JIRA Backlog Hour: 16:00 UTC in #dspace IRC, i.e. one hour AFTER the meeting. During that hour, we will be working together to tackle our JIRA Backlog of "Received" tickets.
- DSpace Developers Meeting: 15:00 UTC in #duraspace IRC

Agenda

Discussion Topics

1. Discussion of "Service API" work from @mire. Feedback / thoughts? Should we try to get this into 6.0?
   a. If you haven't seen the overview yet, please read the above wiki page or watch the video / slides.
2. DSpace 5.3 Release - Final Steps
3. Migrating off SourceForge - Latest Status
   a. Tim has been doing some test migrations of mailing list archives from SourceForge to Google Groups.
      i. So far, it's very "rough around the edges". I can migrate the archives fine, but the date of old emails always gets changed to date of migration (not ideal at all!)
4. DSpace 6.0 Status
   a.

      > Unable to locate Jira server for this macro. It may be due to Application Link configuration.

   b.
5. RoadMap work
   a. Design - Single UI Project has some rough timelines on likely plans.
      i. Rough draft of Prototyping a Future UI which describes what the prototyping process may look like (feedback welcome!)
   b. A "UI Working Group" first meeting in the works. Early August (date being finalized, looking like either Aug 3 or 10)
      i. Rough draft of Working Group charter: DSpace UI Prototype Working Group (2015-16)
      ii. Once date is finalized, we'll announce an open meeting (anyone can attend) to discuss the upcoming UI Prototyping and get volunteers for Working Group.
6. Other topics?
