1. [F4 GitHub Organizations](#):

4 github organization: fcrepo4 (core), fcrepo4-lab (new effort), fcrepo4-archive (old projects, no longer development), and fcrepo4-exts (projects related to fedora). Detail info [F4 GitHub Organizations](#) . Please feel free to edit that page and add your comments.

Note: ajs6f: The core is closed. New project to fcrepo4-exts need at least 2 owners in order to be considered.

2. WebAC update:

First sprint end tomorrow, has initial implement covered some basic scenarios. Detail info: [Design - WebAccessControl Authorization Delegate](#) . You can download the code, build a war file and play it. Will have a second Sprint.

Note: escowles will bring this up to hydra people to sync both efforts.

3. [m2.duraspace.org](#) hosting update:

[m2.duraspace.org](#) hosting will

4. Cluster: yinlin will investigate

5. Asynchronous Storage:

May go api-extension

Unable to locate Jira server for this macro. It may be due to Application Link configuration.

ajs6f: We really don't have a good pattern available for asynchronous REST. The more strongly we commit to REST as the architectural style for the Fedora API, the more this kind of stuff should get pushed into extensions.

awoods: Suggested people to add more use cases, send out emails to communities.

6. Welcome to pick some tickets and solve issues.
