6. Status of "in-flight" tickets

key	summary	type	created	updated	due	assignee	reporter	priority	status	resolution
Unable to locate Jira server for this macro. It may be due to Application Link configuration.										

Ticket Summaries

1. Please squash a bug!

key	summary	type	created	updated	due	assignee	reporter	priority	status	resolution
Unable to locate Jira server for this macro. It may be due to Application Link configuration.										

2. Tickets resolved this week:

key	summary	type	created	updated	due	assignee	reporter	priority	status	resolution
-----	---------	------	---------	---------	-----	----------	----------	----------	--------	------------

Unable to locate Jira server for this macro. It may be due to Application Link configuration.

3. Tickets created this week:

key	summary	type	created	updated	due	assignee	reporter	priority	status	resolution
-----	---------	------	---------	---------	-----	----------	----------	----------	--------	------------

Unable to locate Jira server for this macro. It may be due to Application Link configuration.

Minutes

- 4.7.0 release candidate status
 - Pending - message announcing the release candidate likely over the next day or two
 - Waiting on fcrepo-camel-toolbox release to allow Solr indexing using LDPPath as fcrepo-transform is gone, this needs to be rolled into the vagrant setup.
 - Unknown User (acoburn) is doing this release today.
 - Testing time frame - three weeks ending October 14th, 2016. If everything is OK, potential release around October 17th, 2016.
- PennState Import/Export sprint update
 - Nick Ruest reported on the status of the sprint.
 - First two days, great progress on the Baglt design implementation.
 - Additional review of the work thus far over the next couple of days.
 - Goal is to have stake-holders able to test by next week.
- fcrepo-connector-file maintainer
 - Call for someone to become the maintainer of [fcrepo-connector-file](#).
- Stanbol 1.0.0 release coming soon
 - Unknown User (acoburn) described Stanbol, discussion of some features and how to use Stanbol for linked-data tasks.
- Quick review of ticket status
 - Suggestions on how new contributors can help move project forward.
 - Find open tickets, assign yourself if you think you can put some resources working on the ticket, if you really can not, unassign yourself so that others can look into the ticket.
 - Difference between Recieved and Open tickets discussed; Received are tickets that anyone submitted; Open tickets are legitimate Received tickets that committers feel should have developer resources applied to it.
