Minutes

Release Candidate

1. More testing time for the new patch (release candidate 2). Need more testers to try backup and restore. Looking to release the week October 31, 2016. [Jared Whiklo](#) will send out another follow-up email to ask for testers for backup/restore.
2. [Fcrepo-vocabulary](#) - tabled to next meeting as [Unknown User \(acoburn\)](#) was not in attendance.
3. Workshops to have people bring things they are working on, and/or have people work together on these projects. Allow others to have test out and possibly roll a "winning" feature into a coming release. [Youn Nob](#) will follow up with [David Wilcox](#).
4.

Unable to locate Jira server for this macro. It may be due to Application Link configuration.

 - perhaps replace the htmlunit testing
