Unable to locate Jira server for this macro. It may be due to Application Link configuration.

Ticket Summaries

1. Please squash a bug!

key	summary	type	created	updated	due	assignee	reporter	priority	status	resolution

Unable to locate Jira server for this macro. It may be due to Application Link configuration.

2. Tickets resolved this week:

key	summary	type	created	updated	due	assignee	reporter	priority	status	resolution

> Unable to locate Jira server for this macro. It may be due to Application Link configuration.

3. Tickets created this week:

key	summary	type	created	updated	due	assignee	reporter	priority	status	resolution

> Unable to locate Jira server for this macro. It may be due to Application Link configuration.

Minutes

- Fedora 4.7.1 release status
  - Two outs
    - > Unable to locate Jira server for this macro. It may be due to Application Link configuration.
      - the upgrade of the
      - Causes problems or drop-in replacement, which is a problem for a point release.
      - Changes syntax from RDF 1.0 -> RDF 1.1.
      - Esmé Cowles supports the proposed fix, and will review and test.
      - Kevin Ford will test as well.
      - N.B. this will be removed in 4.8.0 release.
      - Kevin Ford proposed creating a wiki page with basic info on releases that are planned.
    - https://jira.duraspace.org/browse/FCREPO-2376 - This ticket surfaced during import/export work.
      - Is this behaviour right or wrong? API specification would help aid this, and we have a how-to on how to add your own prefixes.
      - Not a blocker for the 4.7.1 release
    - > Unable to locate Jira server for this macro. It may be due to Application Link configuration.
      - ce it either.
    - Islandora testing - Nick Ruest will make sure testing happens on the Islandora side
- Opportunity to lead a user group
  - Noting that there is a conference, and they are looking for somebody to help facilitate the session.
- Import/Export - Sprint 3
  - Nick Ruest thanked the team for their great efforts during the sprint, and provided an overview of the sprint accomplishments. An announcement will be made to the mailing lists next week.
  - Andrew Woods gave an overview of the verification tooling, and the work that needs to be done.
- Perf/Scale
  - How to proceed with the group? It appears from a community perspective that the group is important, but we have little engagement and buy-in. How can we make the group work?
  - Jan. 16th call will be used to address these issues
- New DevOps interest group... in collaboration with Islandora and Hydra
  - Just an FYI. Katherine Lynch was interested in creating a group that brings together Islandora and Hydra communities around Fedora DevOps. More on this in the future.
