

Islandora Internet Archive Bookreader

Introduction

A Islandora wrapper for the Internet Archive BookReader.

This module doesn't do much on its own, its assumed that it will be used in conjunction with a solution pack, where it will be provided as a viewer.

Requirements

- [Islandora Core Module](#)
- [Tuque](#)
- [Djatoka](#)
- [Islandora Solr Search](#) (Optional)
- [Libraries API](#)
- [Colorbox](#)

Installation

Install as usual, see [this](#) for further information.

Download/clone the [Internet Archive BookReader](#) to `sites/all/libraries/bookreader`, or run `drush iabookreader-plugin`.

Internet Archive BookReader [Developer documentation](#)

This module requires that you set up Djatoka, please follow the steps outlined at [here](#).

This module requires [Colorbox](#) and its dependant library [Colorbox library](#). Depending on the version of the Colorbox module and library you are using, there can be some issues with Colorbox finding the library. [This](#) comment solves the issue.

Note: If you use the Drush command, it is advisable to Move (not copy) the install script to your `.drush` folder and run it.

Configuration

Set the 'djatoka image compression level', 'Solr field relating pages to book PIDs', 'Overlay Opacity', a content type to be displayed in the IAV, and select the 'Default page view' in Administration » Islandora » Islandora Viewers » Internet Archive BookReader (/admin/islandora/islandora_viewers/internet_archive_bookreader). Additional options involve behavior for mobile users, and using the JPG datastream as a backup in case Djatoka cannot return a JP2.

Note: to use Internet Archive Bookreader as a viewer for Book or Newspaper Solutions Pack, you'll also need to set "djatoka URL" in [Islandora Paged Content](#) config page.
