Agenda

Topic	Lead
Fedora and digital preservation survey summary - Final call for comments and feedback	Ginny
NDSA's Digipres2017 Proposals	Robin
Roundtable	

Previous Actions

Minutes

DP Survey - Sent out to leaders to review before further dissemination. Austria or Australia? Check.

- Fedora versions chart is a bit unclear - maybe sort by version or otherwise rework

- Findings often from textual responses rather than the numerical results - need to make this clear
- "Long cycles favor community/open source approach"?
- Order size/volume charts for clarity
- Report will be reworked and the released to be used as required

Deadline for proposals NDSA DigiPres 2017 - will be extended, get something in (esp. if going to DLF)

Roundtable

- UCSD migration proceeds
- Pre-OR Webinar in preparation
- Oxford hosting Fedora/Hydra camp Sept 4-8
- Duke - Inport/export sprint testing for F4 and porting F3 code, also testing Hyrax (to replace DSpace)
- Emory - working with DCE on Hyrax (go-live Aug 1st)
- Princeton - participating in I/E sprint - first migration done 1M images/4K objects - now accepting new material
    - Still some performance issue but not affecting end users
    - Ongoing ModeShape tweaks
    - Will try physical rather than VM in summer
- Amherst - preparing for migration - working on mission./vision for repo first
- Penn State - upgrading 44.7 - currently stuck on 4.6 with some issues to resolve (working out where in stack bottlenecks are)
- UVA - Mike Durbin working on import/export sprints; released an ETD solution on Sufia/F4, OA on beta version of Hydrax/F4 set to release in August; both solutions point to a common Solr and Fedora 4 instance and we look to migrate content currently hosted in Fedora3.x to the central Fedora4 in the coming year want to get to one newer Hyrax app for both ETD and OA in furture
- UT Austin - DAMS based on Islandora/F3 - will move to F4 after release
    - Fedora camp in Oct
- Next week Islandora con - pre-alpha of CLAW F4, 1.0 ideally by OR
- Spec solidification proceeding

...Migration stories/issues should be captured
