- 1 Type search query and click Lookup button to search currently selected authority (i.e., Library of Congress) (mockup action: Not functional in the mockup.)
- 2 Change which authority to search. Can also search local authority. (mockup action: Clicking OCLC FAST will show you its mockup. Mockup for Cornell Local is not yet available.)
- 3 Clicking Cancel button returns to edit form without adding an author. (mockup action: Returns to edit form without changing it.)
- 4 Clicking one of the Authoritative Labels selects it as the author. (mockup action: No impact in the mockup. It will simply return you to the edit form without making changes.)
- 5 Clicking the external link icon takes you to the full Library of Congress page for that subject. (mockup action: This works in the mockup.)
- 6 If a field has a long list (e.g. > 5), a more... / less... label can be used to show more or less values, respectively to keep the table from getting too large. (mockup action: The more... link does not work.)
- 7 When an author can't be found in one of the authorities, the user can add them to the local authority by clicking Add to Local button. (mockup action: Mockup for Add to Local is not yet available.)

buy [Balsamiq Wireframes](#) now to continue editing your mockups.
