

2017-09-28 API Extension Architecture meeting

- Thursday 28 October, 1pm EST (UTC -5)
- Dial-in Number: (712) 775-7035
 - Participant Code: 479307#
 - International numbers: [Conference Call Information](#)
 - You may also call in using the [VoIP dialer](#) from a web browser, or Android/iOS apps
- IRC:
 - [Join the #fcrepo chat room via Freenode Web IRC](#) (enter a unique nick)
 - Or point your IRC client to #fcrepo on [irc.freenode.net](#)

Attendees

- [Aaron Birkland](#)
- [Ruth Duerr](#)
- [Elliot Metsger](#)
- [Joshua Westgard](#)
- [Andrew Woods](#)
- [Daniel Lamb](#)
- [Hanh Vu](#)
- [Yinlin Chen](#)
- [Daniel Davis](#)
- [Aaron Coburn](#)
- [Nick Ruest](#)
- [A. Soroka](#)
- [Joe Harrington](#)
- [Dean Farrell](#)

Agenda and Minutes

1. Updates
 - a. Camel updated to 2.19.x, ActiveMQ to 5.15
 - i. Incompatibilities with Camel jetty component fixed - OPTIONS requests are now ignored by default in 2.19.x
 - ii. Need to do PR against repository-extension-services in order to upgrade it to 2.19.x as well
 - b. Authorization turned on by default
 - i. Lots of config and doc changes
 - ii. Updates to rdf visualization extension in order to handle authn nuances
 1. original request headers (from client, which may include auth headers) included in requests to fcrepo
 2. If non-success response from fcrepo, that response is forwarded to user verbatim (may include WWW-authenticate header)
 - c. Adding Solr + camel toolbox services
 - i. PR currently being debugged before being submitted
2. Issues
 - a. [Exception thrown when requesting service docs](#)
 - b. [Should exposed service URI analyzer throw an exception if two extensions declare the same path?](#)
3. Fedora 5 compatibility?
 - a. Persisting ontologies (as binaries) may be the only incompatibility
