

2018-01-17 - API Spec Meeting

Time/Place

- Time: 2:30pm Eastern Time US
- Dial-in Number: (712) 775-7035
 - Participant Code: 479307#
 - International numbers: [Conference Call Information](#)
 - Web Access: <https://www.freeconferencecallhd.com/wp-content/themes/responsive/flashphone/flash-phone.php>

Attendees

[blocked URL](#) (facilitator)

[blocked URL](#) (notetaker)

- Benjamin Armintor
- Esmé Cowles ★
- Daniel Lamb
- Andrew Woods +
- Simeon Warner

Agenda

1. Action: Create wiki page for implementations (including results of running against the TCK)
2. Editors / Implementers conversation series
3. Pull requests
 - a. [pr-324](#) - fixes html5validator
 - b. [pr-318](#) - Say LDP-RS must be created with LDP-NR on PUT (*awaiting input from Benjamin Armintor*)
 - c. [pr-285](#) - define fcrepo:PreferCompactLists IRI for Prefer header values ("*more time needed*"... *until what?*)
4. Plan for addressing open **Recommendation** issues
 - a. [issue-317](#) - Clarify LDPNR creation via PUT ([PR-318](#), *needs review from Benjamin Armintor*) ...*should be good to go*
 - b. [issue-314](#) - Add Ben Pennel to Contributors editorial - [PR-322](#)
 - c. [issue-313](#) - Editorial: reorder sub-sections in section 5. Resource Authorization - needs a PR but need to merge PR-320 and PR-321 first
 - d. [issue-312](#) - Clarify many links rather than many link headers - [PR-321](#)
 - e. [issue-311](#) - Clarify Location support on LDPCv POST - *needs a PR*
 - f. [issue-310](#) - 4.3.3 Not describing Accept-Post - *needs a PR*
 - g. [issue-309](#) - Clarify HTTP PUT requirements around types, subtypes, and interaction models - *needs a PR*
 - h. [issue-308](#) - Clarify expectations around external body content and Accept-Post response header - *needs a PR*
 - i. [issue-280](#) - Numbering scheme? - *should be released as 1.0.0*
 - j. [issue-172](#) - Clarify algorithm for finding authorizations - [PR-320](#)
5. Open [No Milestone](#) issues

Notes

1. Wiki page for implementations
 - a. <https://github.com/fcrepo/fcrepo-specification/wiki/Implementations>
 - b. We should have TCK in a good state before we host test results, but that would be a good improvement
 - c. All: will try running the TCK against Fedora master and provide feedback
 - i. It would be great if Benjamin Armintor and Simeon Warner would run the TCK against Cavendish/Trilpy
 - ii. It would be good if we can all do this by next week's meeting
2. Editors/implementers conversation series
 - a. Sounds like a good idea
 - b. Andrew will schedule this
3. Pull requests
 - a. #324 ignoring html5 editor issue that cropped up in new release
 - i. May need to rebase other PRs
4. Recommendation Issues
 - a. Waiting on Benjamin Armintor: [#318](#), [#322](#)
 - b. [#321](#) - moving towards one big Link header, but the spec seems to favor that
 - c. [#320](#) - Daniel Lamb will request changes on that related to accessToGroup

Action Items

- **ACTION** (Daniel Lamb): To create PR: non-norm: LDPCv is both a timemap and a container, but does not allow POST
