Overview

"Altmetrics" is a general term for non-traditional metrics related to scholarly works. See Wikipedia: <https://en.wikipedia.org/wiki/Altmetrics>

"Altmetric" is a company, a division of Digital Science, that collects altmetrics and makes them available via APIs. See <http://altmetric.com>

VIVO uses APIs provided by Altmetric to provide altmetrics on scholarly works. Altmetrics makes its service available without fee or license restriction.
