

DevMtg 2018-05-02

Developers Meeting on Weds, May 2, 2018

Today's Meeting Times

- DSpace Developers Meeting / Backlog Hour: 15:00 UTC in [#duraspace IRC](#) or [#dev-mtg Slack channel](#) (these two channels sync all conversations)
 - Please note that all meetings are [publicly logged](#)

Agenda

Quick Reminders

Friendly reminders of upcoming meetings, discussions etc

- [DSpace 7 Working Group \(2016-2023\)](#): Next meeting is May 3 at 14:00 UTC in [DSpace Meeting Room](#). See wiki page for meeting details and past meeting notes.
- [DSpace Entities Working Group \(2017-18\)](#): Next meeting is TBD. See wiki page for meeting details and past meeting notes.
- [DSpace Developer Show and Tell Meetings](#): Next Show & Tell will be May 15 at 15:00 UTC.

Discussion Topics

If you have a topic you'd like to have added to the agenda, please just add it.

1. [DSpace 7 Community Sprints](#) : Reminder that the first sprint is next week! (May 7-18) Signup if interested
 - a. Sprint goals documented at [DSpace 7 Community Sprint 1](#)
2. (Ongoing Topic) [DSpace 7 Status Updates](#) for this week (no major updates - other than Sprint reminder)
 - a. [DSpace 7 Working Group \(2016-2023\)](#) is currently concentrating on building out search, submission, authentication and MyDSpace functionality. 4Science submission/workflow UI (see [video](#), [slides](#)) to be submitted as series of PRs in coming weeks.
 - b. DSpace 7 Dev Status spreadsheet: https://docs.google.com/spreadsheets/d/18brPF7cZy_UKyj97Ta44UJg5Z8OwJGi7PLoPJVz-g3g/edit#gid=0
3. (Ongoing Topic) [DSpace 6.x Status Updates](#) for this week
 - a. [DSpace 6.3 Release Planning](#) is ongoing. Thanks to those who have been helping out with tests and reviews over the last week.
 - b. As noted previously, the target release date is May 21, and some PRs will be shifted to 6.4 as we don't have enough resource to get through them all.
 - c. The highest priority is testing and improving the ORCID v2 API functionality (DS-3447). If you have time to help, please try out the newest pull request at <https://github.com/DSpace/DSpace/pull/2039> and join the conversation / reviews in Github.
4. Tickets, Pull Requests or Email threads [Need Discussion Requiring more attention? \(Please feel free to add new links with the discussion under this topic\)](#)
 - a.  n Link configuration.
 - b.  Unable to locate Jira server for this macro. It may be due to Application Link configuration.
 - c. 

Tabled Topics

These topics are ones we've touched on in the past and likely need to revisit (with other interested parties). If a topic below is of interest to you, say something and we'll promote it to an agenda topic!

1. Management of database connections for DSpace going forward (7.0 and beyond). What behavior is ideal? Also see notes at [DSpace Database Access](#)
 - a. In DSpace 5, each "Context" established a new DB connection. Context then committed or aborted the connection after it was done (based on results of that request). Context could also be shared between methods if a single transaction needed to perform actions across multiple methods.
 - b. In DSpace 6, Hibernate manages the DB connection pool. Each **thread** grabs a Connection from the pool. This means two Context objects could use the same Connection (if they are in the same thread). In other words, code can no longer assume each new `Context()` is treated as a new database transaction.
 - i. Should we be making use of `SessionFactory.openSession()` for READ-ONLY Contexts (or any change of Context state) to ensure we are creating a new Connection (and not simply modifying the state of an existing one)? Currently we always use `SessionFactory.getCurrentSession()` in `HibernateDBConnection`, which doesn't guarantee a new connection: https://github.com/DSpace/DSpace/blob/dspace-6_x/dspace-api/src/main/java/org/dspace/core/HibernateDBConnection.java

Ticket Summaries

1. Help us test / code review! These are tickets needing code review/testing and flagged for a future release (ordered by release & priority)

key summary type created updated assignee reporter priority status fixversions

Unable to locate Jira server for this macro. It may be due to Application Link configuration.

2. Newly created tickets this week:

key summary type created assignee reporter priority status

Unable to locate Jira server for this macro. It may be due to Application Link configuration.

3. Old, unresolved tickets with activity this week:

key summary type created updated assignee reporter priority status

Unable to locate Jira server for this macro. It may be due to Application Link configuration.

4. Tickets resolved this week:

key summary type created assignee reporter priority status resolution

Unable to locate Jira server for this macro. It may be due to Application Link configuration.

5. Tickets requiring review. This is the JIRA Backlog of "Received" tickets:

key summary type created updated assignee reporter priority

Unable to locate Jira server for this macro. It may be due to Application Link configuration.

Meeting Notes

Meeting Transcript
